**MOBILE APPLICATIONS ENHANCE  
LANGUAGE LEARNING & RETENTION**

*Repetition, audio/visual communications, and context are key aspects for developing vocabulary and language semantics that can be retained. Mobile applications provide an in pocket solution for learners to easily refer to these fundamentals throughout their learning.*

**Elder Wisdom & Cultural Video Productions**

*Our Elders and cultural advisors are the wisdom keepers in our communities; capturing our Elders wisdom and stories ensure that they are there for generations to come.*

**Traditional Songs & Stories from Your Community**

*Historical images, stories, legends, and songs are paramount for carrying Indigenous ways of knowing & being forward. As a First Nations company we understand how these work together to enhance the learning and understanding of ones cultural heritage and language.*

**Our 5 Step Process Ensures Project Success**

*We've developed a 5 step process for working with staffs, elders, and community members to achieve a custom app that honourably represents your community and delivers effective systems of learning. For more info. please call or visit our website below.*
